

Yellow Springs Economy Survey

Q8 Which jobs would you like to see more of in Yellow Springs?

Answered: 182 Skipped: 121

#	Responses	Date
1	I would like to see more enviro-tech companies, also more large businesses like Xylem...also hope that Antioch College succeeds.	5/14/2014 3:43 PM
2	Jobs that provide needed services to other human beings and that pay a decent wage.	5/13/2014 4:41 PM
3	professors, computer scientists	5/13/2014 7:29 AM
4	more professional jobs	5/12/2014 10:27 PM
5	art-related, art education	5/12/2014 3:18 PM
6	education environmental and sustainability related work	5/12/2014 2:20 PM
7	Industrial/business.	5/12/2014 1:40 PM
8	Research, tech, clean industry.	5/12/2014 11:13 AM
9	More jobs at the colleges and the arts.	5/12/2014 11:10 AM
10	More professional businesses (engineering, information technology,), limited manufacturing and light industry.	5/12/2014 11:05 AM
11	positions suitable for highly educated workforce (e.g. consulting, education-related, management)	5/12/2014 10:22 AM
12	Skilled manufacturing	5/12/2014 10:05 AM
13	High tech jobs, especially software development. Non polluting STEM oriented businesses.	5/11/2014 11:07 PM
14	Small-to medium sized companies with a workforce of at least 50 people	5/11/2014 6:39 PM
15	Professional, light manufacturing, technical	5/11/2014 10:08 AM
16	Local food, homegrown businesses, businesses with with low impact on the environment, businesses related to sustainability, think tank for small communities, incubators for new business.	5/11/2014 2:26 AM
17	More industry jobs	5/10/2014 10:36 PM
18	Tech jobs, community co-op type places (maybe a learning center where people could teach workshops to each other for a small fee)	5/10/2014 9:25 PM
19	quiet clean industry related jobs	5/10/2014 1:48 PM
20	Light manufacturing; skilled crafts (woodworking, custom machining, repair and restoration, etc.); restoration of staff and faculty at Antioch College and University; restoration of Village staff.	5/10/2014 12:43 PM
21	full time professional jobs that provided benefits and potential for growth.	5/10/2014 11:09 AM
22	I'd like to see more variety of businesses: a diner, a sat I'm not sure.	5/10/2014 10:39 AM
23	A wide range.	5/10/2014 9:10 AM
24	engineering, architecture, light manufacturing, educational elated businesses	5/10/2014 8:54 AM
25	Science, labs	5/10/2014 8:38 AM
26	IT	5/10/2014 8:35 AM
27	Light manufacturing.	5/10/2014 7:24 AM
28	Environmental, planet friendly.	5/10/2014 1:42 AM
29	More product oriented jobs, manufacturing jobs, which employ affluent consumers.	5/9/2014 11:33 PM
30	Technology and education.	5/9/2014 9:34 PM

Yellow Springs Economy Survey

31	Knowledge based jobs. Sustainability related jobs. I.T. Also, light assembly or manufacturing that don't require college degree.	5/9/2014 9:15 PM
32	I would like to see Antioch College really thrive, but I think that is a long way off. I would like to see more professional jobs here.	5/9/2014 7:17 PM
33	engineering	5/9/2014 7:01 PM
34	Manufacturing	5/9/2014 5:48 PM
35	Programming & coding, energy sustainability (not fracking) printing (3D), finance, self-sustainable building construction and sustainable agriculture (CSA).	5/9/2014 5:41 PM
36	Jobs that provide a good living wage with the prospect of salary increases and advancement.	5/9/2014 5:07 PM
37	Higher paying.	5/9/2014 5:02 PM
38	I am not sure what the jobs would be but ones where workers can earn a sustainable wage, not minimum wage. Maybe small start up businesses and ecofriendly light manufacturing.	5/9/2014 4:55 PM
39	See # 3 above. We need the assistance of employee taxes to a greater scale, and utility use.	5/9/2014 4:53 PM
40	Art , music and education.	5/9/2014 4:50 PM
41	Manufacturing, research, electronic, and not clerking, painting or other arts	5/9/2014 4:39 PM
42	Green energy. Climate change related (energy efficiency in housing, solar power, etc. Production of products for export that support energy conservation and/or green energy production - find ways to be part of the solution to problems about which we are concerned.	5/9/2014 4:34 PM
43	Anything besides tourism	5/9/2014 4:30 PM
44	living wage jobs. More professional (white collar) level jobs.	5/9/2014 4:00 PM
45	Salaried jobs with benefits and a living wage or better. Jobs which require skills and/or a college education.	5/9/2014 3:35 PM
46	I don't know this area well enough to answer	5/9/2014 2:49 PM
47	Manufacturing like the ones Vernay laboratories had at one time	5/9/2014 2:33 PM
48	don't know	5/9/2014 2:32 PM
49	Non retail.	5/9/2014 2:22 PM
50	Service jobs; tech jobs; manufacturing; education.	5/9/2014 2:14 PM
51	Any	5/9/2014 2:00 PM
52	More opportunities in technology and the arts. I am not as interested in seeing more jobs as I am in creating and maintaining careers with a potential for growth. So many of the services jobs pay too little and have very high turnover.	5/9/2014 1:49 PM
53	ones that appeal to artists similar to vie design and bookplate, development of performing arts perhaps in alignment with antioch college, a serious revival of the amphitheater, a new wellness fitness center and medical center working with local colleges, an acceptance rather than rejection of the novel, ex. Norahs restaurant. encourage investors and government employees understand the values of the village and its history and read the small community by morgan	5/9/2014 1:46 PM
54	green jobs art jobs health/wellness jobs We should capitalize on our strengths. We could do with fewer shopkeepers, who don't have a passion for good customer service. Our community-supported shops can project an air of entitlement, instead of gratitude and welcome.	5/9/2014 1:35 PM
55	Any that aren't selling junk no one needs	5/9/2014 1:24 PM
56	I think we need to attract more wholesale distribution companies such as Electroshield. Distribution companies require some highly skilled workers. They are pretty clean operations as far as their environmental impact. Research and Development would be another area for good paying jobs.	5/9/2014 1:24 PM

Yellow Springs Economy Survey

57	I do not believe residents in YS need to live and work solely in YS. While I think it works for some people, the thought of trying to be everything to everyone I don't think would be effective. We become the jack of all trades, but the master of none. We are strong in the arts, getting stronger in food service. It would help to diversify beyond those areas to include small businesses that are able to employ 3-30 people: Computer science, engineering firms (alternative energy/food consumption that evaluate human performance and ingenuity)..	5/9/2014 1:17 PM
58	I would like to see Norah serving breakfast again in Yellow Springs. I would like Tom's to continue to broaden its support of local agriculture. I would like Antioch's Steinway grand to find a permanent home at the Presbyterian Church. I would like to see more innovative startups like David Flowers' mechanically-powered woodshop. I would like to see more restaurants source local foods and support local farms. I would like to see a good thrift store or clothing exchange. I would like a real music store.	5/9/2014 1:00 PM
59	technology	5/9/2014 12:58 PM
60	Any that would bring economic growth	5/9/2014 12:52 PM
61	????	5/9/2014 12:41 PM
62	Jobs that pay more than \$50,000 a year.	5/9/2014 12:32 PM
63	Needs a warehouse to provide more employment opportunities.	5/9/2014 12:27 PM
64	More opportunities to work in the local businesses.	5/9/2014 12:25 PM
65	Unsure.	5/9/2014 12:24 PM
66	manufacturing, technological	5/9/2014 12:21 PM
67	jobs that build things, and teach people how to take care of themselves and the planet. Stay away from jobs don't help to put food on the table except that they are jobs that make money	5/9/2014 12:05 PM
68	High paying clean energy jobs related to medicine, science and financial services	5/9/2014 12:03 PM
69	I would like to see more small business owners that make their business a way of life- they matter the most. I would also like to see space for professional offices for people that need to look professional and have an office for architects/lawyers/designers etc. Where would they set up space now? no where that I can see with broadband/ fiber optics and a professional waiting room.	5/9/2014 11:58 AM
70	Professional, "higher-income- jobs.	5/9/2014 11:55 AM
71	Jobs above minimum wage and manufacturing jobs.	5/9/2014 11:51 AM
72	Jobs based on intellectual innovations that involve manufacturing, as in Xylem and EnvirFlight.	5/9/2014 11:47 AM
73	I can't think of anything because we are close to areas that have a large varieties of employment.	5/9/2014 11:39 AM
74	No comment	5/9/2014 11:35 AM
75	Entrepreneurial.	5/9/2014 11:33 AM
76	small mom and pop businesses that supply the village with what it needslike the farmers market does....Deatons the pharmacybut also small businesses that work together with the college the "Enviro - thing" that is going to be housed in the old Antioch art bldg.	5/9/2014 11:31 AM
77	small business, technology, engineering	5/9/2014 11:30 AM
78	My hope is that Antioch College can incorporate not just environmental but operational sustainability as part of its new culture, and thoughtfully add positions as it grows.	5/9/2014 11:25 AM
79	?	5/9/2014 11:06 AM
80	High tech / IT jobs. These jobs require power, good internet access and a place to meet and sit. Our power is OK (usually), internet access is satisfactory, but the office spaces are extremely limited and expensive.	5/9/2014 10:47 AM
81	Any. Though public servants are a good choice. Though I doubt the village budget could cover more public servants. I'd like to see the postal jobs stay in the village.	5/9/2014 10:47 AM
82	Office / Clerical	5/9/2014 10:47 AM

Yellow Springs Economy Survey

83	#1 WE NEED A 24 HOUR INTERNET CAFE for people who do NOT have internet access or a computer in their home!!! Administrative, clerical, office. Those people who access skills tests on the Greene County Library site need 24 hour access to that information as well as the internet! The poorest citizens are the most disenfranchised!	5/9/2014 10:46 AM
84	More service oriented businesses.	5/9/2014 10:46 AM
85	Above a living wage jobs: Health care related (offices, out-patient, therapy), professional (legal, investment, design, accounting, consultants, etc), small manufacturers of higher tech products, expansion of Enviroflight jobs, software and computing related, energy efficient construction jobs.	5/9/2014 9:33 AM
86	light manufacturing	5/9/2014 9:07 AM
87	Professional opportunities	5/8/2014 11:37 PM
88	Any jobs in any industry that can provide FT employment to our current residents--those jobs that match residents' skills/ interests	5/8/2014 10:41 PM
89	Science and engineering. ?? Hard to say... more "professional" jobs will yield a better tax base which I think will help immensely. I also think we could tap into our tourist niche much more.	5/8/2014 10:39 PM
90	Environmental, green building materials, more garden supplies	5/8/2014 10:34 PM
91	Retail	5/8/2014 10:15 PM
92	Education, sustainable farming and service jobs that pay a living wage. We have too many rich people. We need more economic diversity.	5/8/2014 9:26 PM
93	Small businesses related to local food and farming (food carts, value added products, etc)	5/8/2014 9:19 PM
94	Business, professional, technical	5/8/2014 5:54 PM
95	Highly paid professional jobs.	5/8/2014 5:01 PM
96	Can we produce something like we did in the past?	5/8/2014 4:00 PM
97	Environmental based; Research institutions; light, and sustainable manufacturing jobs; food production particularly one that works off our local resources - dairy production, grain processing. Also health and wellness - be a destination for this;	5/8/2014 3:33 PM
98	Light industry. Service. Technology. Small biz.	5/8/2014 3:07 PM
99	Any jobs are good for the economy	5/8/2014 2:53 PM
100	More of what we have: higher ed, wellness, arts-related and hospitality (hotels, b&bs, restaurants)	5/8/2014 2:51 PM
101	More educational institution jobs. Business and clean industry growth.	5/8/2014 2:16 PM
102	Skilled professional jobs or more start ups with potential to grow. Problem is that we don't have space for them.	5/8/2014 2:13 PM
103	food sustainability, health alternatives, arts	5/8/2014 2:13 PM
104	Jobs that pay living wage and benefits. Technology jobs. Health-related jobs.	5/8/2014 1:33 PM
105	I would like to service sector and creative sector jobs. Again, tourism could drive the service sector and creation of other attractions and amenities. As for creative sector jobs, this would include designers, educators, inventors, artists, leaders, innovators.	5/8/2014 1:27 PM
106	Professionals	5/8/2014 1:14 PM
107	Production/manufacture/engineering from home businesses or small warehouse bases. Tech boom.	5/8/2014 1:07 PM
108	Retail - clothing (practical as in socks and underwear, children's clothing), more ethnic restaurant options, gardening/farm Cultural - live theater Small manufacturing	5/5/2014 2:01 PM
109	?	5/3/2014 12:25 PM
110	good health care professionals	5/1/2014 10:14 PM
111	creative, social entrepreneurship start-ups; family owned small businesses that fill unique sectors (not just aimed at tourism); cooperatives (food, kitchen, health, childcare, housing); expand Community Land Trust and HomeInc model to employ more people and create more opportunities	5/1/2014 9:29 PM
112	Healthcare of course.	5/1/2014 9:24 PM

Yellow Springs Economy Survey

113	I would like to see more senior services, more after school arts related programs, holistic health jobs and jobs relating to serving the poor. YS has lost some of the diversity it once enjoyed. We need to have jobs and programs for those of low and middle-low economic status in order to attract and retain a variety of people, which only serves to make YS more richly diversified.	5/1/2014 9:22 PM
114	Jobs which could keep younger generations here...	5/1/2014 10:31 AM
115	Any	4/30/2014 8:58 PM
116	Restaurant - diner, bakery	4/30/2014 8:56 PM
117	Restaurants, food carts, education, childcare	4/30/2014 2:01 PM
118	I make a distinction between private enterprise, and government supported enterprise. In the private sector possibilities are infinite, though schemes must be regulated to protect the public. It should be remembered that our grand old businesses that have, for the most part, folded, have left behind some terrible pollution for us to continue to deal with. Do we really need more of this? Our municipal economic plan, on the other hand, should have strict limits so that in addition to the wages earned, the products themselves should be of benefit to the local population. Therefore, aerospace engineering belongs to the private sector to develop, while food, health, art and construction could be the basis for a municipal plan, especially if these things are unified under an environmentally sustainable philosophy. With this plan, promoted effectively, perhaps we could once again draw the 1% of the American population that is sometimes referred to as Bohemian - young creatives looking for hope in a world of increasing despair.	4/30/2014 12:33 PM
119	Skilled labor and or manufacturing, technology, medical specialties like Pediatrics or Allergy Specialists.	4/29/2014 11:54 PM
120	Technical	4/29/2014 7:00 PM
121	A collaboration of education, wellness, healthcare, and sustainable farming. I would also like to see camp Greene utilized as a retreat center for healing and education	4/29/2014 5:05 PM
122	Light manufacturing that would require a vocational high school degree or 2-year specialized training programs, perhaps through Sinclair and Clark Tech. Incubator for small businesses to grow or start.	4/29/2014 4:58 PM
123	ANYTHING other than retail, restaurant	4/29/2014 4:32 PM
124	Living wage, innovative businesses	4/29/2014 4:19 PM
125	Green technology and locally made products. We don't necessarily need a lot of jobs. We need jobs that people can live on.	4/29/2014 3:32 PM
126	jobs with decent pay and benefits	4/29/2014 3:24 PM
127	More "working class" jobs. We have many part time sales jobs and then higher level professional jobs. We need an inbetween for people who dont have phd's but are skilled workers.	4/29/2014 3:06 PM
128	Manufacturing.	4/29/2014 11:39 AM
129	Local butcher shop, solar panel dealer/installation (where you can choose panels); more science-based industry such as Xylem/YSI; environmental services	4/27/2014 5:13 PM
130	No more low skill jobs thankyouverymuch. We need professional, High tech, high pay jobs....and residents.	4/27/2014 4:54 PM
131	Jobs that pay a living wage and enable people to put some aside for rainy days. Internet jobs would fit well with Yellow Springs, since the Village has trouble embracing manufacturing jobs due to the environmental hazards associated with manufacturing process by-products.	4/27/2014 1:45 PM
132	Those that pay \$50,000 to \$100,000 a year.	4/27/2014 8:57 AM
133	Ecologically beneficial manufacturing	4/27/2014 1:42 AM
134	Actually, a well balanced variety would be good	4/26/2014 6:43 PM
135	I'm not sure this matters.	4/26/2014 4:16 PM
136	Jobs that pay at least \$15/hour and offer benefits to the employee since they are the people who generate value and money for the business/owner.	4/26/2014 3:35 PM
137	Business professional	4/26/2014 1:42 PM

Yellow Springs Economy Survey

138	Entrepreneurial manufacturing.	4/26/2014 11:50 AM
139	Manufacturing. These jobs tend to pay more than service industry jobs and create greater tax revenue. Furthermore, they provide a greater opportunity for not only Villagers to work within their own community, but also for those in adjacent towns to come into Yellow Springs, and hopefully spend some money.	4/26/2014 10:58 AM
140	Refer to the vision document	4/26/2014 8:16 AM
141	Technical (such as EHealth), medical, ag/food production (not more retail restaurants), for profits that can link with our educational or natural or existing business resources	4/26/2014 7:35 AM
142	decent-paying, middle-level jobs in light manufacturing; tech-related jobs.	4/26/2014 6:21 AM
143	Social services (counseling, rehab, social work), education (tutoring and assessments).	4/26/2014 12:06 AM
144	Better paying jobs such as engineering, technical etc.	4/25/2014 11:45 PM
145	Small manufacturing	4/25/2014 11:19 PM
146	Environmental science and green technology.	4/25/2014 10:40 PM
147	Prison guards. Nude dancers. Yoga instructors. Psychologists. Massage therapists. Buskers in front of Tom's.	4/25/2014 10:11 PM
148	Those with which one can support a family. Benefits and at least 30 hrs/wk. Administrative or light industrial.	4/25/2014 9:08 PM
149	Light manufacturing; financial services; increased Village government staff; more staff and faculty at a more successful Antioch College.	4/25/2014 7:53 PM
150	City jobs. Full time, benefits, living wages.	4/25/2014 7:38 PM
151	Anything that provides a living wage (be it healthcare, technology, communications, law, etc). Nothing that is grant-dependent/non-profit.	4/25/2014 7:32 PM
152	More Restaurants, that are affordable....	4/25/2014 7:24 PM
153	I believe the arts and hearings art are the way to go. We could also do more with tourism and eco-tourism.	4/25/2014 7:18 PM
154	All kinds	4/25/2014 6:53 PM
155	Technical, non-manufacturing, research, etc	4/25/2014 6:46 PM
156	Technology jobs, green jobs	4/25/2014 6:39 PM
157	Jobs that provide opportunity for more than minimum wage and career growth.	4/25/2014 5:58 PM
158	Mix of blue- and white-collar jobs.	4/25/2014 5:52 PM
159	All of them, which is to say a healthy mix of service/retail, manufacturing, agricultural, academic, and technological jobs.	4/25/2014 5:48 PM
160	Less sales and more service, office, research, and education.	4/25/2014 5:41 PM
161	Tech jobs. Information services. Sustainable food systems (worm farms, food hub)	4/25/2014 4:56 PM
162	Village Government should not attempt to influence the type of jobs available in Yellow Springs	4/25/2014 4:50 PM
163	I would like to see more public support for job creation, particularly for business start-ups. What happened to the Economic Development Revolving Loan Fund? Get that going again! Maybe start a MicroEnterprise fund in collaboration with a local nonprofit to relieve some burden from Village staff.	4/25/2014 3:52 PM
164	Full time, professional, with benefits that are sustainable over time-- jobs that can't just disappear / be shipped somewhere else	4/25/2014 3:28 PM
165	Farming - local cottage industries -	4/25/2014 2:58 PM
166	If you need a job, start a business.	4/25/2014 2:44 PM
167	It would be nice to see small biotech firms and small research consulting firms. I have never figured out what all the resistance is to the CBE, except for not wanting the village to spend any money on it.	4/25/2014 2:05 PM

Yellow Springs Economy Survey

168	nonprofit jobs, publishing, graphic design . . .	4/25/2014 2:04 PM
169	Skilled trades, technical, scientific, professional.	4/25/2014 1:59 PM
170	Jobs that leverage our community brand, are growth oriented and draw on our existing talent base, I would like to see a larger commitment to building businesses	4/25/2014 1:39 PM
171	More social services	4/25/2014 1:33 PM
172	Skilled labor and management. Adding businesses outside the service industry would help bolster the village's long-term economic stability.	4/25/2014 12:58 PM
173	Technology-related jobs, green/environmental/sustainability jobs, small business incubators, architecture/design firms, cooperative office space for freelancers, non profits	4/25/2014 12:07 PM
174	High tech industries, finance, food processing.	4/25/2014 12:06 PM
175	science, engineering, but also more general labor.	4/25/2014 12:00 PM
176	More job openings at Antioch College. This is unlikely since they seem to be running through cash like drunken sailors. If they were being prudent they would be creating more jobs.	4/25/2014 11:57 AM
177	I would like to see the small start up companies be supported through no-interest loans from the revolving fund so that they can expand. This would provide a variety of jobs with growth potential.	4/25/2014 11:51 AM
178	Medium/light industrial leaning towards technology. Things tied to the military might be good, as we are close to the base and the income of military families would be helpful. Bring more medium to high income people living here would be good. Not losing the small town feel though is key.	4/25/2014 11:45 AM
179	Some sort of well-paid manufacturing maybe, maybe green energy, or making something that is relevant to agriculture, it would be nice to see yellow springs producing something again.	4/25/2014 11:44 AM
180	Education and student services. I drive right past Antioch College to work at another college 45 minutes away.	4/25/2014 11:38 AM
181	anything that pays a living wage	4/25/2014 11:37 AM
182	Jobs paying a living wage and offering benefits, ensuring quality of life.	4/25/2014 11:36 AM
